

## Connecting our community

MovingAhead is about planning transportation on our main streets that serves people better by connecting neighborhoods to jobs, schools, shopping, recreation, and other activities. It brings land use and transportation planning together to keep us, our environment and our economy healthy.

## Working together

MovingAhead is a cooperative partnership of Lane Transit District (LTD), the City of Eugene, regional partners, and the community they serve. It builds on local planning efforts – Envision Eugene, Eugene’s Transportation System Plan, and LTD’s Long-Range Transit Plan.

A well-planned transportation system supports **great neighborhoods** and helps keep our community, and our economy moving.

We value transportation that is **safe and accessible for everyone**, whether by foot, bike, mobility device, bus, or car.

## Getting involved

We need your input to help make sure all voices are heard in planning our community’s future. This summer and fall, watch for events and other chances to learn and participate.

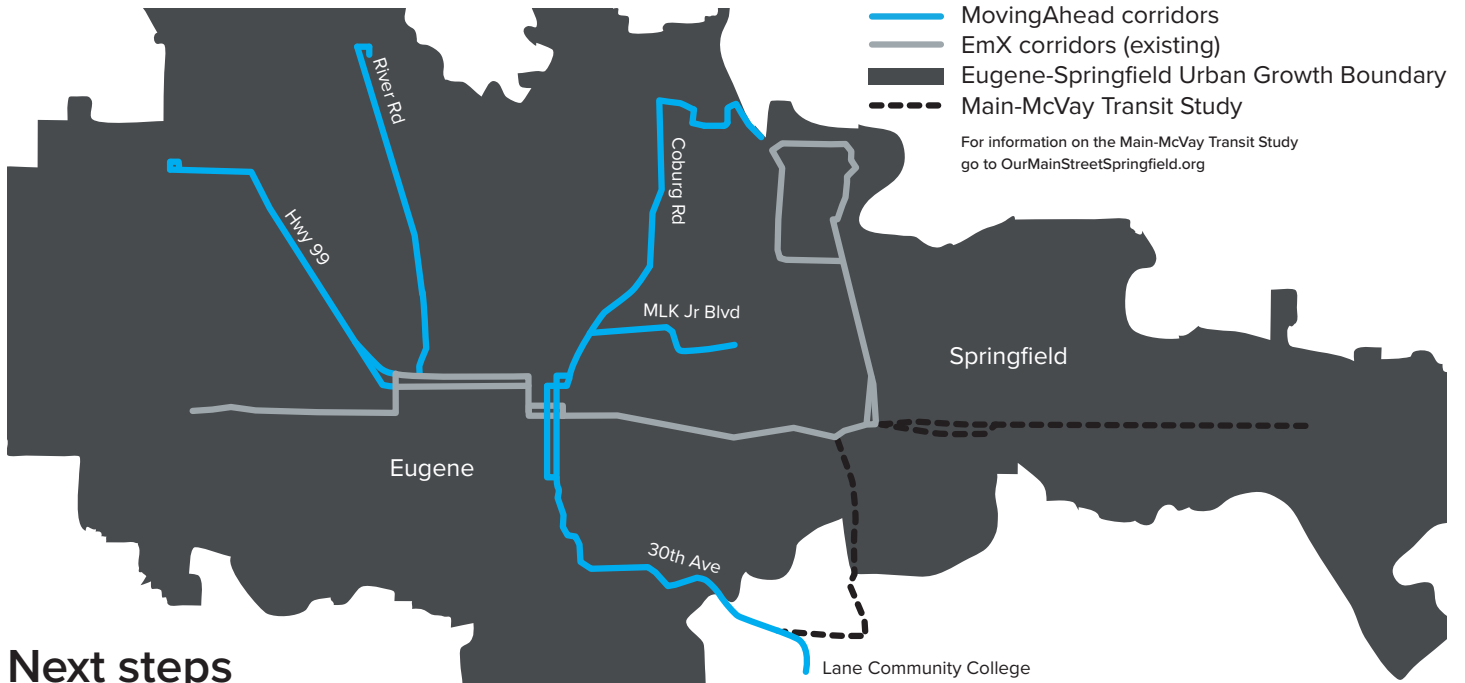

For the latest information, to join our mailing list, or to send feedback:

## Our work so far

In 2015, we started looking at transportation investments along seven key corridors. Since then, we narrowed our focus to five corridors: Highway 99, River Road, 30th Avenue to Lane Community College, Coburg Road, and Martin Luther King, Jr. Boulevard. Public input from 2015 – 2016 has helped determine what options are currently being considered.

## Next steps

We're looking at current and future land uses, environmental concerns, and community needs and values to decide what to fund, design and build over the next 10 years. As we invest in the future of our community, your feedback is vital.
